

## QF-Series LED-backlit Display 28"

**4K UHD Brings A  
New Level of Clarity  
and Detail**

Featuring UHD 3840 x 2160 resolution, the QF-Series delivers impeccable performance that enables users to experience stunning picture clarity and sharp details. Among a wide range of connections, its DisplayPort 1.2 supports true 4K content at a 60 Hz refresh rate. Sitting firmly on an ergonomically designed stand, the QF-Series is able to tilt, pivot, swivel, and adjust height to maximise productivity and viewing comfort. All this and more make the QF-Series perfect for professional applications requiring detailed and exquisite images.

### Experience the 4K Difference

Don't miss a single detail with this powerful 4K display. View smooth 4K video and graphics with a new level of detail and clarity. Offering 8.3 million pixels, the QF-Series provides sufficient resolution for even the most demanding surveillance and digital signage applications.

### Versatility and Multitasking

Multiple signal source options, including HDMI and DisplayPort 1.2, offer the QF-series the versatility to integrate with other devices. Its connectivity, complemented by PIP/PBP capabilities, makes multitasking, such as studying different images or matching datamedical records, possible in a single display.

### Ergonomic Design

A versatile stand is also a highlight of the QF-Series. Professionals can enjoy both comfort and convenience while using the QF-Series displays, with a height adjusting stand that allows for tilting, pivoting, swiveling, or switching to either portrait or landscape mode as warranted.
